Ratchet dial

Our longest lasting implant battery

RAYOVAC, a world leading manufacturer of hearing aid batteries has been at the forefront of the industry for over 110 years. With a drive to constantly innovate and evolve means RAYOVAC® batteries are synonymous with quality.**

Designed specifically with cochlear implant users in mind, the RAYOVAC® Implant Pro+ provides users with the quality, performance, reliability and consistency they need to live life to the full.

This has been made possible thanks to a robust cathode design, which ensures durable, long lasting performance and our secure sealant process provides the cell stability required for a consistent and reliable user experience.

In choosing RAYOVAC, you are opting for more than just a battery:

- First class service is the hallmark of RAYOVAC and comes as standard with every purchase.
- You will also gain our technical expertise and exceptional support package.

- RAYOVAC works tirelessly to ensure our highest quality hearing aid batteries are available to our customers.
- Using world class manufacturing techniques and performing 262 quality checks ensures our highest product performance.
- Our manufacturing facilities both in the UK and the USA are certified for conformity to quality standards. With our Washington plant certified by ISO 9001, 14001 and ISO 45001, and our Portage plant certified by ISO 13485.
- All RAYOVAC® products come with a 4 year shelf life guarantee.
